> **Verification boundary:** This page combines platform design guidance with static evidence from the release. It does not prove that every detected interface is enabled, reachable, secure, or operational in the deployed environment.

Static comparison summary

No previous release was supplied. Run with `--compare /path/to/previous-release` to generate a static change inventory.

Detailed changes

No comparison report is available.

Review warning

A route or component can appear added/removed because of renaming, generated files, build layout or scanner visibility. Review source control and execute compatibility tests before publishing these differences as customer-facing release notes.

Maintainer Notes

Add human-reviewed deployment notes, corrections, decisions, screenshots, and links here. Content outside the generated block is preserved on future runs.
