

Deployment Architecture

Deployment Architecture

Field	Value
Distribution	WCT English — OpenC5ISR
Product	OpenC5ISR
Release	0.15.1
Deployment	openc5isr-en.wallacecorptech.com
Source	/srv/wct/releases/OpenC5ISR-v0.15.0
Evidence	Release layout and container evidence
Source fingerprint	63d2b1097707e25d666401cdc6362e395968600a40a08690210cd8c0b75fbf50
Status	Generated baseline — human review required

“ **Verification boundary:** This page combines platform design guidance with static evidence from the release. It does not prove that every detected interface is enabled, reachable, secure, or operational in the deployed environment.

Container/service topology
candidates

No Compose service was extracted; use the systemd and Nginx pages for other deployment evidence.

Recommended release pattern

/srv/<owner>/releases/<product>-vX.Y.Z/	immutable extracted release
/srv/<owner>/instances/<edition>/current	symlink to active release
/etc/<product>/<edition>/	protected configuration and secrets
/var/lib/<product>/<edition>/	persistent state
/var/log/<product>/<edition>/	logs, when not solely in journald

Keep code/release artifacts immutable, configuration outside the release, persistent data outside the release, and activation as an atomic symlink/service switch. This makes rollback possible without reconstructing the prior state.

Maintainer Notes

Add human-reviewed deployment notes, corrections, decisions, screenshots, and links here. Content outside the generated block is preserved on future runs.
